## Officer Cites Advantages Of Guard

Young men faced with a military obligation were urged today by Lt. Kingston, Commander of Co C 89th Engr Ayn of the Mississippi National Guard, to make the most of the time they will be obliged to remain in the ready reserve by starting off their service with six months of training with the active army.

The six months training, provided for the Reserve Forces Act of 1955, will give a young man the foundation on which he can build a career as a citizen-soldier, Lt. Kingston stated.

Service in the National Guard Lt. Kingston explained requires one night a week for training and 15 days of field training each summer.

The six months training, which includes courses in leadership, will equip a man for more rapid advancement in the National Guard. This advancement Lt. Kingston declared, can lead to appointment as a commissioned officer in the National Guard.

While members of the National Guard are not required to take the six months active duty, they may volunteer for this type of training. Guardsmen who enlist before they are 18 years of age and perform satisfactory service until age 18 are draft deferred. The six months of training will reduce a Guardsman's military obligation from "until age 28" to a total of eight years.

Lt. Kingston said that further information on Guard enlistment and the six months training plan may be had by calling at the Armory Necaise Ave., or phoning 385.

The Mayor has ordered the city pound keeper to make a concerted and determined effort to take in all dogs found at large, upon the city streets after June 1. The Mayor said this would afford dog owners two weeks in which to take steps to insure that their dogs will not be permitted to roam the streets.

Dogs picked up will be confined in the pound for three

days. If not called for by the owner within that time, they will be destroyed.

The mayor said that during the last few weeks the office of the mayor and commissioners has been flooded with complaints about dogs running at large. There also have been several incidents reported of

adults and children being bitten by stray dogs.

The commission council also has been informed by Dr. C. M. Shipp, county health officer, that the rate of rabies infection may greatly increase at this season, and the health officer recommended strongly that every effort be made to rid the streets of stray dogs.

The Leo Seal home on North Beach was the scene Saturday of an afternoon tea in honor of Mrs. J. P. Coleman, wife of the Governor of Mississippi, with members of the Bay Waveland Garden Club as hostesses.

Receiving with Mrs. Coleman, who wore a stunning white linen sheath, embroidered at the neckline with tiny white satin flowers and a corsage bouquet of white orchids, were Mrs. Waldo Otis, president of the Garden Club and Mrs. Seal. Mrs. Otis chose a black and white embroidered cotton sheath and Mrs. Seal, white linen. Both ladies wore corsages of pink roses.

White magnolias and yellow daisies were used in profusion in the lovely living room of the home. In the dining room where tea and coffee were served from silver appointments, the mantle was banked with yellow and white daisies. The dining table was covered with an imported white Madeira cloth and

centered with a silver bowl of yellow roses. Yellow candles in silver candelabra flanked this unusually beautiful centerpiece.

Punch was served on the spacious porch of the home from a glass table with spring flowers arranged beneath the top. Many tea delicacies were served with the other refreshments.

Members of the Board of the Garden Club along with members of the club assisted in serving.

About one hundred ladies called during the afternoon to meet Mrs. Coleman.

### Check Preservers Before Buying, Warns C. G.

Eighth Coast Guard District Headquarters this week cautioned pleasure boaters on the importance of proper life-saving equipment aboard boats.

They pointed out that numerous accidental drownings in the area during the past year were the result either of a boat capsizing and its occupants not having a life jacket or one that was not accessible.

In other instances, the Coast Guard warned, faulty life saving equipment was a big factor in causing these drownings.

There are many life saving devices on the market today which do not meet the requirements specified in the Motor Boat Law.

Many boat owners purchase a life saving device in all good faith and with full confidence in the product, being a life jacket approved by the Coast Guard when in reality it is not. Many misleading tags are placed on this equipment, such as "Meets all US Navy, Maritime, and Life Saving Requirements."

#### STATE OF MISSISSIPPI - COUNTY OF HANCOCK

**NOTICE TO BIDDERS**  
Notice is hereby given that the Board of Supervisors of Hancock County will receive sealed bids to be filed with the Clerk of this Board on or before 9:00 o'clock A.M., Monday, June 4th, 1956, for furnishing to Hancock County for the use of District Three of said County, the following equipment:

(1) One new Diesel Powered Tandem Motor Grader with 100 horse power, 13.00 x 24 tires (front and rear), hydraulic shiftable moldboard, cab and gear driven tandem.

(2) One new Diesel Motor Grader powered with 75 horse power diesel engine, tandem drive, steering booster and independent gasoline starting engine, 13.00 x 24 tires (front and rear), cab.

Bids may be made on either of the above mentioned equipment or both. The Board of Supervisors reserving the right to reject any and all bids.

GIVEN under my hand and official seal of office, this 23rd day of April, A.D. 1956.

A. C. Mitchell, Clerk,  
Board of Supervisors  
(Seal) Hancock County, Mississippi.

while others are stamped "Coast Guard Type."

Any life saving devices approved by the Coast Guard will be plainly stenciled in waterproof ink, or there will be attached in full view a tag with the marking, "US Coast Guard Approval No. 160," etc., along with the name and address of the manufacturer.

In addition, any such devices which are inspected during the course of manufacture are stamped individually by a Coast Guard Inspector, "Inspected and Passed," with the date, place where inspected, inspector's initials, and the letters, "USCG."

E. Harvey, and being directed to foreclose said Deed of Trust by the said J. E. Harvey, therefore, I, Fred Rester, named in said Deed of Trust as trustee thereof, will on Monday the 4 day of June, 1956, offer for sale and will sell at public auction for cash to the highest and best bidder at the Courthouse in Bay St. Louis, Mississippi, during legal hours, the following described property to-wit: SE 1/4 of NW 1/4, Section 17, Township 5, South Range 14 West, situated in Hancock County, Mississippi, less and except the mineral rights, which have heretofore been title.

If boat operators look for these official markings, they can be assured that the equipment they are purchasing is Coast Guard approved and will meet all the requirements of the Motor Boat Law and will pass the inspection of a Coast Guard Boarding Officer.
